

12/21/12

Jordan was an intern for the fall of 2012. I am the visual effects coordinator at BAKED FX, and oversaw Jordan's time with our company.

Jordan took initiative to get involved with projects and took advantage of his down time to continue learning on his own. He accepted every challenge with a smile and was thorough through every level of the task assigned. He volunteered his personal time when we were in a tight project delivery and modeled / textured crucial components of our final project.

I would recommend Jordan because of his natural skill and his positive attitude.

Best,

Jessie Mizrahi
